

**Centre Medico Social Nord Alexis
76 Ruelle Nord Alexis
Port-Au-Prince, Haiti**

Opened in July 2007, Diaspora's site in Port-au-Prince, Haiti is result of over two years of planning, research and process. We are pleased to provide educational, health and medical services as well as an opportunity to promote quality services in a poverty stricken area of Haiti.

The goals of Centre Medico Social Nord Alexis are:

- *To work to save lives of all persons that access our services via appropriate medical care and referral;*
- *Deliver services with respect; maintaining our cultural knowledge, competence and yet not allow it to limit our work*
- *To develop educational programs to benefit the community we serve. This will include programs for youth and young adults.*
- *Raise the profile of maternal, newborn and child health while advocating for increased resources*
- *To advance medical and health care services for women and children; and include the involvement of men during pregnancy and in programs for parents.*
- *To integrate family planning and HIV/AIDS voluntary counseling and testing as well as referral for services.*
- *To Provide family planning counseling to avoid unwanted pregnancies*
- *Use Effective Interventions: Promoting the assessment, scaling up, and delivery of evidence based, cost effective interventions, with a focus on reducing inequities in access to care*
- *Work to advance the status and human rights of women, children and families around the world*
